SPARES

ABOUT PLANT PARTS

The service that sets us apart

HIGH AVAILABILITY OF PARTS

Our strong supplier chain and continued stock investment means we have the parts you need when you need them.

GUARANTEE OF PERFORMANCE

We guarantee that the parts we supply will fit and perform to specification, or your money back!

EXPERT FRIENDLY ADVICE

Our friendly team of experts can correctly identify the parts you need, providing you reliable options to maximise your uptime.

RELIABLE SUPPORT

Our strong supplier chain and continued stock investment means we have the parts you need when you need them.

SPECIALIST REPAIRS

Our state-of-the-art workshop is the hub for our hydrostatic diagnostics, repair and reconditioning services.

ONLINE PARTS FINDERS

Our searchable database of over 2 million parts numbers is another reason our team can consistently help you maintain your machine.

Proud to supply genuine, OEM and quality aftermarket parts for:

Airman, Atlas, Bobcat, CASE, CAT, Daewoo, Fiat Hitachi, Fiat, Kobelco, Fuchs, Gehl, Hanix, Hitachi, Hyundai, IHI, JCB, Kobelco, Komatsu, Kubota, Liebherr, Link Belt, Mitsubishi, Morooka, Neuson, New Holland, Nissan, Pel Job, Samsung, Schaeff, Sumitomo, Takeuchi, Terex, Volvo, Yanmar

DIAGNOSTICS, REPAIRS AND RECONDITIONING

Our state-of-the-art workshop is the hub for our hydrostatic diagnostics, repairs and reconditioning services.

With free UK collection* and inward processing authorisation for the EU, our repair centre receives components from all over the world. Our teardown and inspection services are included for free, with repairs or overhauls of gearboxes and hydraulic motors, and we are a specialist repair and reconditioning centre for final drives, swing drives and hydrostatic gearboxes.

With direct access to millions of parts and detailed technical drawings, we precisely identify faults and find the exact parts to fix them, replacing only what is necessary and reconditioning parts wherever possible to ensure you get the most cost-effective repair.

Your dedicated account team will keep you informed about the repairs, costings, parts and delivery timescales, leaving our skilled technicians to concentrate on your repair. With bespoke machining services, we configure track motors to meet your specific needs, depending on your exact applications, whether that's differing speeds, braking or even underwater usage.

**Excluding Scottish Highlands and Islands.*

Specialising in repairs with high-quality parts:

- Bonfiglioli
- Rexroth
- PMP
- Nabtesco
- Kayaba
- Kawasaki
- And many more...

**THE ONLY BONFIGLIOLI-APPROVED
REPAIR CENTRE OUTSIDE ITALY**

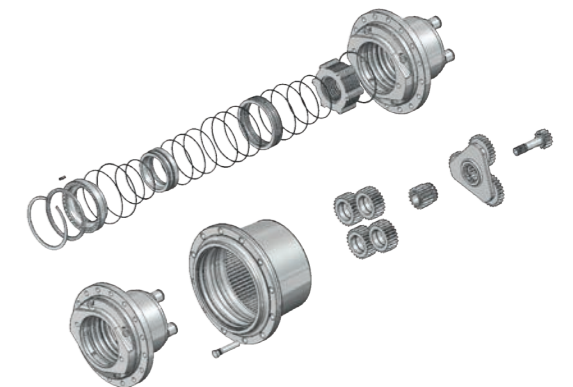

“Fantastic company. After spending all morning trying to source bearings for our final drive unit, it took just a five-minute phone call to Plant Parts to source what I needed. I ordered the bearings at 2.45 pm and they were delivered the next day - they actually arrived before 10 am. I would recommend Plant Parts 100%”

Rebecca Jones, Operations Manager Garmendale Engineering Ltd

FINAL DRIVES SUPPLY & PARTS

Final drives are the driving force behind your machine, they're a big investment and you need that investment to last.

As suppliers and refurbishers of a whole range of genuine, original equipment manufacturer (OEM) and FDC brands, we don't just supply final drives, we know them inside out. Our technicians configure systems to meet your exact requirements and price point, whether that's genuine or OEM parts or aftermarket solutions at OEM standards.

Options for over
150 brands of
excavators and all
other track laying
equipment

For all machine
sizes from
1 tonne to 65
tonnes

Torque range:
1,000 Nm to
250,000 Nm

Genuine, OEM
and FDC brands

UK exclusive
dealer for FDC
final drives

**INTERESTED IN REPAIRS? BEFORE YOU BUY A NEW FINAL DRIVE,
ASK US ABOUT OUR REPAIR AND RECONDITIONING SERVICE.**

JUST LOOKING FOR FINAL DRIVE PARTS?

Whether you simply need a seal or bearing, or a more complex gear carrier or hydraulic piston, we stock every item you need for a final drive rebuild. We can even offer parts usually unavailable from OEMs. If your part has become obsolete, our team can build an alternative solution to the same exacting standards, using substituted, reconditioned or used parts. With full access to over two million parts, detailed drawings and parts lists, whatever your machine, your application or your requirement, we will find a solution.

SWING DRIVES, RECOILS, SLEW RINGS AND PUMPS

SWING DRIVES

When you need a replacement swing drive, you can trust our team to provide the best option, according to your machine brand, model and application. With our fully stocked warehouse and trusted supply chain, we'll guarantee fast delivery of new, genuine, OEM and FDC brand swing drives. We have swing drives for more than 150 excavator brands, over 1000 models and for all sizes from 1.5 to 40 tonnes.

Depending on your needs and the machine design, we sell swing motors, swing gearboxes or complete assemblies and if you're just looking for parts, we can supply gearbox reduction sets, seal kits, motor rotating groups, brake plates and much more.

QUALITY AFTERMARKET RUBBER TRACKS

Our wide range covers a variety of machines so you can order by track size or model number, with next day delivery in the U.K. If it's in construction, we can offer tracks for it!

RECOIL SPRING AND TRACK ADJUSTER ASSEMBLIES

Carrying out a recoil spring replacement in-house can be a dangerous process with many safety risks. Our complete recoil spring and track adjuster assemblies provide a straightforward replacement solution, minimising the downtime of your equipment and delivering excellent value for money. With over 4000 different recoils and stock options for machines over 10 tonnes, we'll ensure fast, easy and safe replacement that will get your machine moving fast.

SLEW RINGS

Our unrivalled UK stockholdings include a wide variety of slew rings for over 9000 machine makes, models and sizes, ranging from 0.8 – 88 tonnes. We use the manufacturers that supply OEMs so you can be sure that our slew rings are produced using the latest technologies and made from the highest quality materials yet offered at very competitive prices. Our worldwide supply network enables us to obtain the fastest possible delivery times with all in-stock slew rings available for same-day dispatch.

HYDRAULIC PUMPS

We hold a huge stock of genuine and high-quality aftermarket hydraulic pumps for all leading excavator and backhoe loader brands. We also offer a wide range of convenient and cost-effective parts and rebuild kits for all major makes, including Kawasaki, Komatsu and Nachi.

KOMATSU PARTS

As Komatsu specialists for over 30 years, we can supply the complete range of parts for Komatsu excavators, bulldozers, wheel loaders, backhoe loaders, dump trucks and other equipment.

As the UK distributor for the trusted ETP brand, and with our reliable supply chain, we are well placed to be able to offer many genuine, OEM and high-quality aftermarket spare parts options. Not being a main dealer gives us much more flexibility to offer you the same quality at better prices.

In our recently expanded warehouse, we hold a variety of standard parts ready for next-day dispatch, including pins and bushings, engine parts, electrical items, hydraulic seal kits, final drives, swing drives, piston pumps, gear pumps, track adjusters and recoil spring assemblies and slew rings. For more specialised items, our team can search our vast database and parts books to identify the exact parts you need, offering the best solutions with fast delivery.

When it comes to servicing/refurbishing your Komatsu machine, we put together competitive parts packages that are time-sensitive to your projects, combining quality parts with the best prices available.

DISCOVER PARTS FINDER

Looking for a final drive, swing drive, pump, recoil or slew ring? Use Parts Finder to check available stock in real-time by entering the machine model number and serial number.
